

Only Great Teachers

Person 1: “Think back to the best teacher you’ve ever had—the one who understood you and knew you personally. Now imagine being that teacher, trying to get to know over 200 students every year. It’s an almost impossible task.”

Person 2: “But with EKG, you can get to know your students by creating in-class games that encourage your students to share about themselves. Our app remembers what they share, so you don’t forget.”

Person 1: “Use EKG to Engage, Know, and Grow in the Classroom.”
