### Play Zone Innovations:

The custom Lazer Harp is one of the most innovative play elements in the Playground. Maintaining an open area for group play children of all ages gather to create their own orchestra by breaking the beams of light from the arch above. With a vast library of sounds and the ability to change tones by breaking the beam at different heights the Lazer Harp provides endless opportunity for cooperative and imaginative play. To balance the active play element a Cozy Cocoon and a Retreat Bench compose the remaining area of the zone. Providing a location on the boundaries of play areas to rest and observe is important for children who become over stimulated or who may be reluctant to join in.
