

Identifying a person's unmet wishes, aspirations, and requirements related to a particular task or goal

Assessing skills, tools, systems that enable a person to satisfy their needs and reach their goals

Context Discovery
Identifying the circumstances, forces, and limitations that affect how people satisfy their needs

Assistive Technology
Devices, systems or technologies that enable a person's limited abilities to reach their goals

Some things about needs...

They are not needs, wants	They are not independent	They are not independent
They are not independent	They are not independent	They are not independent
They are not independent	They are not independent	They are not independent

Dear Diego about seeds...

What do you think about the seeds?	How do you think the seeds are made?	How do you think the seeds are made?
What do you think about the seeds?	How do you think the seeds are made?	How do you think the seeds are made?
What do you think about the seeds?	How do you think the seeds are made?	How do you think the seeds are made?
