# 10 Commandments of Making

Adam Savage took a few minutes on Sunday, May 18<sup>th</sup> at the 2014 Maker Faire Bay Area to share what he feels are the **10 Commandments of Making**. Braving the somewhat precarious elevated stage of the crowd favorite Life-Sized Mousetrap, Adam addressed the audience with bits of wisdom and jewels of experience. It was obvious from the laughter that many of these insights and observations struck close to home.

# 10 Commandments of Making

Here is the short version of the commandments according to Adam:

1. Make something
2. Make something useful
3. Start right now
4. Find a project
5. **Ask for help, advice, and feedback**
6. Share
7. Recognize that discouragement and failure is part of the project
8. Measure carefully
9. **Make things for other people**
10. Use more cooling fluid!
