

HEPL SEMINAR

WHO

Professor Yuri Feldman,
Hebrew University
Jerusalem, Israel

*“Human Skin as Arrays of Helical
Antennas in the Millimeter and
Submillimeter Wave Range”*

WHAT

Peculiar electromagnetic properties of the human skin in the millimeter and submillimeter wave range, which may result in potential risks to human health from the sub-THz communication systems, as well as in opportunities to directly assess the person's emotional/physiological state.

WHEN

Sept 27, 2018
4-5pm

WHERE

**Physics &
Astrophysics
Building
Kistler
Conference
Room 102/103**
452 Lomita Mall
Stanford, CA 94305

*Light
refreshments
served at 3:45pm
Presentation
begins at 4:00pm
OPEN TO ALL*
