---

Hello,

This update is being sent to all Stanford employees who are currently certified for DOT Shipping Dangerous Biological Goods or Dry Ice, (EHS-2700-WEB).

**There are organizational changes to the ICAO/IATA packing instructions that all dangerous goods shippers must follow.** The updates are:

1. The Packing Instruction number assigned to **Infectious Substances, Category A** has *changed* from **602** to **620**.
2. The Packing Instruction for **Dry Ice** has *changed* from **904** to **954**.

Note: The Packing Instruction number assigned to **Biological Substances, Category B** remains **650**.

**Action Item:**

**Print out and keep** this update notice with your DOT training certification.

Thanks for your attention to this matter.

Best Regards,

Janice Chiavetta
