

Andreas (*running in the front of the stage*): Where is the goddamn restroom in this building I'm about to explode!!!

Odin (*reaches out to stop him*): Woahhh dude calm down. We have exactly what you need: PISSION.

Darynne: Pission helps you find restrooms before you even leave the house, letting you stay focused on your journey, not the pit stops.

Andreas: Yeah yeah cool story bro – how does it work?

Merve: With Pission, you can explore a map of restrooms shared by the community, with ratings and filters for restroom features to find the perfect spot to take care of business.

[While Merve is doing this, Andreas pours a bit of water on his pants that will be visibly wet.]

Andreas: (*with water on pants*) Welp, a little late now.
