

**THE UNDERGRADUATE PROGRAM IN**  
**Anthropology**  
Stanford University | 2013-2014  
(B.A., B.A. MINOR, SENIOR PAPER,  
RESEARCH, HONORS)

Undergraduate training in the Department of Anthropology is designed for students who seek the bachelor of arts (B.A.) degree, only. The department also offers a minor in Anthropology.

### THE DEPARTMENT

The courses offered by the Department of Anthropology are designed to:

- 1) provide undergraduates with instruction in anthropology;
- 2) provide undergraduate majors in anthropology with a program of work leading to the bachelor's degree; and
- 3) prepare graduate candidates for advanced degrees in anthropology. Anthropology is devoted to the study of human beings and human societies as they exist across time and space. It is distinct from other social sciences in that it gives central attention to the full time span of human history, and to the full range of human societies and cultures, including those located in historically marginalized parts of the world. It is therefore especially attuned to questions of social, cultural, and biological diversity, to issues of power, identity, and inequality, and to understanding the dynamic processes of social, historical, ecological, and biological change over time. Education in anthropology provides excellent preparation for living in a multicultural and globally-interconnected world, and helps to equip students for careers in fields including law, medicine, business, public service, research, and ecological sustainability and resource management. Students may pursue degrees in anthropology at the bachelor's, master's, and doctoral levels.

The Department of Anthropology offers a wide range of approaches to the various topics and area studies within anthropology including: archaeology, ecology, environmental anthropology, evolution, linguistics, medical anthropology, political economy, science and technology studies, and sociocultural anthropology. Methodologies for the study of micro- and macro-social processes are taught through the use of qualitative and quantitative approaches. The department provides students with excellent training in theory and methods to enable them to pursue graduate study in any of the above mentioned subfields of anthropology. For further information, see <http://anthropology.stanford.edu>.

### **COTERMINAL B.A. / M.A. PROGRAM**

Anthropology admits a limited number of students to pursue the coterminal M.A. degree. Preference is given to applicants who have special training, skills, or experience in various field. Students should be able to complete the M.A. program in 3 to 5 quarters. Anthropology M.A. applicants whose ultimate goal is the Anthropology Ph.D. degree program should apply directly to the Ph.D. degree program. Transferring from the M.A. degree program to the Ph.D. degree program is not permitted.

The deadline for graduate applications to the Coterminal M.A. degree program is December 11, 2013. Stanford University undergraduate majors are eligible to apply for the coterminal master's degree program with a 3.5 GPA in their department major, a 3.0 GPA in overall course work, and with no more than one incomplete listed on the transcript at the time of application. Applicants must have earned a minimum of 120 units towards graduation as shown on the undergraduate unofficial transcript. Successful applicants for the M.A. program may enter in the following Autumn Quarter. Coterminal master's degree applicants are not required to submit their Graduate Record Examination scores.

It is highly suggested by this department that a student, who accepts an offer of admission to the ANTHRO Coterminal Master's program, defers their Undergraduate B.A. conferral until the Graduate M.A. degree requirements have been completed. The student can then request to graduate in both the B.A. and M.A. simultaneously. Please see the Student Services Specialist for details.

Prospective applicants should see

<http://anthropology.stanford.edu> for further information about the application process and the department's requirements for the coterminal master's program.

### **Applicants must submit the following:**

### **HONORS PROGRAM**

The honors program in Anthropology provides eligible Anthropology majors with an opportunity to conduct original ethnographic, field, laboratory, or library-based research under the guidance of an Anthropology faculty member. All Anthropology majors are urged to consider applying to the departmental honors program in Anthropology. Interested Anthropology majors of junior standing may apply for admission to the honors program by applying in Axxess by February 14<sup>th</sup> of their Junior Year, submitting an honors application form, including a research topic/title of the proposed honors project, a two page abstract/proposal, a transcript, and a letter of reference from their faculty or honors adviser. Application packets need to be turned in to the Undergraduate Student Services Specialist on or by February 14<sup>th</sup> in the junior year. Department majors are eligible to apply for honors candidacy with a 3.4 GPA in the department major, a 3.0 GPA in overall course work, and with no more than one incomplete listed on the transcript at the time of application. Students interested in the honors program are encouraged to apply for summer research funding through the Department of Anthropology, Undergraduate Advising and Research, and area studies centers. This process requires planning as the Spring Quarter research deadline falls before the honors application due date. In most case, honors students apply for such funding early in the junior year. Students must enroll in ANTHRO 95B. Senior Paper in the final quarter in the undergraduate degree program before graduating. Only papers with a letter grade of 'A-' or higher may be awarded departmental honors. For further information, see <http://anthropology.stanford.edu>.
