

# Mrinmoy Sanyal, PhD

---

**Work address:**

Department of Biochemistry  
Stanford University School of Medicine  
ChEM-H, W215  
290 Jane Stanford Way,  
Stanford, CA 94305, USA

**Home address:**

724 Arastradero Road #206  
Palo Alto, CA 94306 USA

**Email** : [msanyal@stanford.edu](mailto:msanyal@stanford.edu)**Phone:** 650-387-7751 (Cell)**Website:** <http://www.stanford.edu/~msanyal>

---

**Permanent resident of USA**

---

## Education

**PhD** in Biochemistry (1999) All India Institute of Medical Sciences, New Delhi, India

**MS** in Physiology (1992) University of Calcutta, Calcutta, India

**BS (Honours)** Major in Physiology (1990) University of Calcutta, Calcutta, India

## Research Experience

**September 2005 - Present:** Research Scientist, Stanford University School of Medicine, **Stanford University, USA.**

**September 2000 - August 2005:** Postdoctoral Fellow, Department of Pathology, Stanford University School of Medicine, **Stanford University, USA.** Mentor: **Prof. Michael L. Cleary**

**April 1999 - August 2000:** Postdoctoral Fellow, **Psoriasis Research Institute (Affiliated to Department of Dermatology, Stanford University)** Palo Alto, California. Mentor: **Prof. Eugene M. Farber**

**August 1993 - February 1999:** Research Fellow, Department of Biochemistry, All India Institute of Medical Sciences, New Delhi, India. Mentor: **Prof. Chandana Das**

## Patents / Technology licensing

Formulation and optimization of a ferritin nanoparticle-based betacoronavirus vaccine (**Stanford Office of Technology Licensing Reference: S22-278**); Nature Communication, 2023 Licensed to Vaccine Company Inc.

A multivalent protein-based vaccine candidate displaying SARS-CoV-2 Spike variants for elicitation of neutralizing and protective antibodies against infection. (**Stanford Office of Technology Licensing Reference: S20-289**); Nature Communication, 2023. Licensed to Vaccine Company Inc.

Recombinant human monoclonal antibodies specific to rotavirus VP4 and VP7 with heterotypic and homotypic neutralization capacity. (**Stanford Office of Technology Licensing Reference:**

**15-166).** (US provisional patent; USPTO Serial No. 62/189,901); **Science Translational Medicine**, 2017.

Developed a monoclonal antibody to study the role of Pbx2 in transcriptional regulation, embryonic development, and tissue homeostasis. (**Stanford Office of Technology Licensing Reference: S01-245C; Molecular and Cellular Biology, 2004; Circulation Research, 2008.** (Licensed to 2 US biotech companies).

### **Editorial Board Membership**

Frontiers in Immunology, Editorial Board Member and **Associate Editor** for Vaccine and Molecular Therapeutics.

Frontiers in Immunology, **Topic Editor:** Methods in Vaccines and Molecular Therapeutics

Public Library of Science, Editorial Board Member and **Academic Editor**, PLOS One

Pulmonary Therapy, Springer Nature, Editorial Advisory Board Member

### **Journal Reviewer**

## **Book Chapter**

**Sanyal M** and Das C (1999) Immunomodulators in Human Trophoblast-Uterus Cross Talk: Cytokines, Growth Factors and nitric oxide. In: Reproductive Immunology (ed. S.K. Gupta) Narosa Publishing House, New Delhi; Chapter 10, pp 99-109.

## **Doctoral Thesis**

**Sanyal M** (1998) Study of collagenase-IV and plasminogen activator activity in human trophoblast cells and control of trophoblast proliferation. **All India Institute of Medical Sciences** (Advisor: Prof. Chandana Das).

## Professional Membership

American Physiological Society, Regular member (1999 - present)  
American Society of Hematology, Active member (2005 - present)  
International Society for Stem Cell Research, Active member (2005 - present)  
Society for Science and the Public, Member (2010 - Present)  
Federation of Clinical Immunology Societies, Member (2013 - Present)

## Scholarships / Fellowships / Awards /Grants

**The Herzenberg Prize**, Immunology Program, Stanford University School of Medicine, for the Academic year 2004-2005.

**Dean's Fellowship** of Stanford University of School of Medicine (October 2001- April 2003)

**Dr. K. S. Krishnan Research Fellowship** of Department of Atomic Energy, Government of India (March 1994 - February 1999). This fellowship is awarded to one person in the country per year in each discipline.

**National Scholarship** of Ministry of Human Resource Development, Government of India (August 1990 - September 1992)

**Best poster award** in 4th International Symposium on Biochemical roles of Eukaryotic Cell Surface Macromolecules, National Institute of Immunology, New Delhi, India. (January 1996).

Development of an immune tolerant hESC source for allogeneic cell therapy applications.  
(**Co-Investigator**) California Institute of Regenerative Medicine (Transplantation Immunology: RM1-01711).

## Teaching and Other Public Services

**Grand Award Judge** for Society for Science & the Public (SSP) at the **Intel International Science and Engineering Fair** (2011- 2020).

**Regeneron Science Talent Search Reviewer** for Society for Science & the Public (SSP) at Regeneron Science Talent Search (2021)

**Expert Panelist: Rare Genomics Institute** (2013 and 2015).

**Judge** at Synopsys Championship Science Fair (2014-2020), San Jose.

**Co-Director, High School Summer Research Program** at Molecular Medicine Research Institute, Sunnyvale, California (2014-2015)

**Judge for SPARK Competition** - "The Science, Play and Research Kit (SPARK), Reimagining the 21st Century Chemistry Set" organized by Society for Science & the Public (SSP) and the Gordon and Betty Moore Foundation (2014).

**Special Award Judge** for American Physiological Society at the **Intel International Science and Engineering Fair** (2010), San Jose.

**Frontiers in Immunology: 2006 Stanford Immunology 317.** It is an advanced level course discussing cutting edge topics and research in immunology. Topic: "What can immunologists do with embryonic stem cells?"

**Stanford Immunology Program Seminar Series:** Led seminar discussions with the first-year immunology graduate students.

**Mentoring Biological Sciences Rotation Graduate students.** Topic: *In vitro* differentiation of embryonic stem cells. (Mentee: **Alper Yetil**, Stanford Cancer Biology Graduate Student).

**Mentoring Clinical Fellow in Pediatrics Immunology** (Mentee: **Roshni Mathew**, Clinical Fellow, Pediatric Infectious Disease).

**Mentoring Master's Student in Immunology** (Mentee: **Justin Edwards**, Undergraduate Student, Otolaryngology).

## Invited talks and lectures

**National Institute of Biomedical Genomics** (Kalyani, India) Reverse Vaccinology. December 30, 2019.

**American Society for Virology 34th Annual Meeting** (London, Ontario, Canada), Identification of Targets of Heterotypic B Cell Immunity to Rotavirus in Humans. July 12, 2015.

**West Bengal State University**, Department of Zoology (Kolkata, India): Applications of high-dimensional flow cytometry in molecular immunology. 2<sup>nd</sup> January 2015.

**Society for Systems Biology & Translational Research**, (Kolkata, India): Human immune response analysis and personalized medicine. December 28, 2014.

**Combined Otolaryngology Spring Meetings** (Orlando, Florida): Identification of human nasal mucosal epithelial stem cells. April 2013.

**West Bengal State University**, Department of Zoology (India): Transcriptional control of lymphocyte development: Role of proto-oncogene Pbx1. December, 2011.

**Stanford University, Len Herzenberg's 80<sup>th</sup> Birthday Symposium:** Lack of IL-7 receptor alpha chain (CD127) expression in T cells is a hallmark of T-cell immunodeficiency in Schimke immuno-osseous dysplasia (SIOD). November 2011

**Vanderbilt University**, Department of Microbiology and Immunology: Role of Pbx1 in B cell development. July, 2005.

**2nd Joint Meeting International Psoriasis Symposium and European Congress on Psoriasis** (San Francisco, California): Study of NGF-R positive fibers in transplanted psoriatic plaques in SCID mouse: Role of neurogenic inflammation in pathogenesis of psoriasis. June, 2001.

**Guwahati Medical College**, Guwahati, India: **Sanyal M**, Kumar VS, Gupta S and Das C. Modulation of trophoblast functions by growth factors and cytokines: proliferation and invasion. Young Scientist Symposium on Reproductive Health Issues, May 1997.

**Goa Medical College**, Goa, India: Contribution of trophoblast invasiveness in embryo implantation: A key reproductive process. Young Scientist Symposium on Frontiers in Reproductive Biology, February 1996.

**Indira Gandhi Medical College**, Shimla, India: Plasminogen activator and its Inhibitor in trophoblast invasion and differentiation. Young Scientist Symposium on Frontiers in Reproductive Biology Research, October 1996.

## Selected Presentation in Scientific Conferences

**Sanyal M**, Dionis KY, Baradaran-Heravi A, Dekel B, Bökenkamp A, Boerkoel CF and Lewis DB. Lack of IL-7 Receptor Alpha Chain (CD127) Expression in T cells is a hallmark of T-cell immunodeficiency in Schimke Immuno-Osseous Dysplasia (SIOD). *Blood (ASH Annual Meeting Abstracts)*, Nov 2010; **116**: 2767. Conference: 51st American Society of Hematology Annual Meeting and Exposition, December 3-7, 2010, Orlando, FL, USA.

**Sanyal M**, Fernandez R, Sagi Y, Levy S. CD81, a T cell co-stimulatory molecule, is not required for T cell development. 14th International Congress of Immunology. August 22-2, Kobe, Japan.

**Sanyal M**, Fernandez R, and Levy S. Enhanced B cell activation in the absence of CD81. BLOOD 112 (11): 2578, NOV 16 2008. Conference: 50th American Society of Hematology Annual Meeting and Exposition, December 6-9, 2008 San Francisco, CA, USA.

**Sanyal M**, Shoham T, Fernandez R, and Levy S. Absence of CD81 paradoxically results in a hyper-IgM and IgG response to T-independent antigens. BLOOD 108 (11): 488a, 1719 Part 1 NOV 16, 2006. Conference: 48th Annual Meeting of the American Society of Haematology; December 9-11, 2006; Orlando, FL, USA.

**Sanyal M**, Tung JW, Dejbakhsh-Jones S, Strober S, Herzenberg LA and Cleary ML. The transcription factor Pbx1 is required for the development of double positive thymic T cells. Blood; November 16, 2004; v.104, no.11, p.759a. Conference: 46th Annual Meeting of the American Society of Haematology; December 03-07, 2004; San Diego, CA, USA

**Sanyal M**, Tung JW, Herzenberg LA, Cleary ML. Pbx1 contributes to the development of early B-cell progenitors. Blood; November 16, 2003; v.102, no.11, p.567a. Conference: 45th Annual Meeting of the American Society of Haematology; December 06-09, 2003; San Diego, CA, USA.

**Sanyal M** and Cleary ML. Identification of transcriptional targets for proto-oncogene Pbx1. FASEB summer Research Conference on Hematological Malignancies, Vermont Academy, Vermont, 2003
